Application instructions

Fast, easy and clean

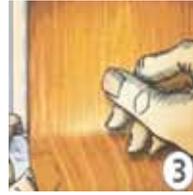

NewDecor sticks to all clean smooth surfaces. It is easy to apply with the wet application process. The foil can be peeled off after a short period and reapplied. **Milky white patches can appear but they will disappear within weeks.**

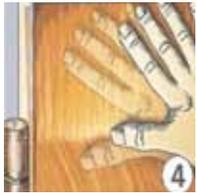

1 Measure and then cut along the lines

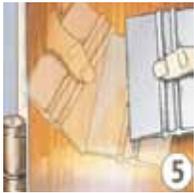

2 Spray the surface with weak soap solution

3 Carefully remove 10cm of backing paper, position and stick down the foil

4 Remove backing paper and smooth in sections

5 Remove excess water and air bubbles to the side with a squeegee

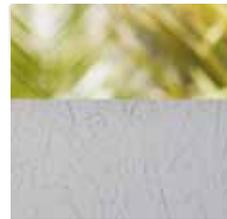

6 Cut off surplus foil with a sharp knife
